MEMORANDUM FOR: Director of Central Intelligence  
 SUBJECT: ACDA Probes for Involvement in Verification Matters

X1 1. On 6 June I was visited by Dr. Fred Eimer and two of his staffers on above subject. [redacted] attended per telecon with Mr. Stoertz.

2. Dr. Eimer stated Dr. Ikles statutory role as advisor to President on arms control matters and complained of an inability to interface with Community on the matter.

3. I resisted his suggestion that ACDA participate actively in the substantive inputs of the Community on arms control matters, but agreed with his views that as a user, ACDA requires a voice in requirements. I offered an informal arrangement with my staff to let ACDA comment on KIQs, stating peculiarities of problems from the ACDA point of view. I expect he will try to formalize the arrangements by having comments on KIQs come in to the DCI over Ikles signature. I am not so committed to this arrangement that it cannot be turned off. I think that this contact tends to keep ACDA out of the substantive business without being beastly.
